

# Supplier Enablement Program

- **Hullabaloo Solutions** understands the problematic issues facing e-procurement implementations. Supplier participation and catalogue management are crucial to success for without supplier catalogues buyers have nothing to buy and generate transactions. Enabling your Suppliers to participate in your initiative is a collaborative process that involves both you and the supplier working together.
- **Hullabaloo Solutions Supplier Enablement program** allows you to outsource the catalogue enablement and content management needs of your supplier community so you can stay focused on managing your business. Hullabaloo will generate awareness, conduct seminars, train, catalogue enable and activate your supplier community for the fastest return on your e-procurement initiative.
- **Our Content Xchange platform** is designed to rapidly enlist supplier participation — crucial to a successful e-procurement project. In addition, Hullabaloo's rollout services, supporting programs and Platform enables Companies to achieve successful supplier enablement and catalogue management with minimal cost and resources allocated.

**Our proven Supplier Enablement methodology combines the following components to launch and deliver a successful e-procurement initiative:**

1. Content Xchange Platform and supplier portal
2. Proven supplier engagement processes and methodology
3. Supplier engagement Kit
4. Dedicated resources for project management and follow up
5. Web-based Supplier Summits
6. Content cleansing and classification Services
